Overview

EnviroKinecs, Inc. is an environmental community planning and public involving consultancy. Our vision is sustainable growth and our values are innovative quality service, economic efficiency and meaningful public participation.

EnviroKinecs, Inc. is majorly focused on facilitating comprehensive strategic solutions for sustainable communities, and our services are designed to facilitate the diverse needs of the transportation, infrastructure and energy industry.

Core Services

- Construction Storm Water General Permit (CSGP) ^(weekly monitoring)
- Public Involvement, Community Outreach & Engagement
- Administrative Assistance and Staffing Coordination
- Lead-Based Paint Inspection, Assessment & Clearances ^(LR121-119)
- Environmental Investigations & Assessments
- Environmental Justice Analysis for EIS and NEPA
- Community based Land Use and Transportation Planning

Differentiators

- We employ collaborative processes to foster consensus across different communities.
- We provide public engagement activities for implementation of the Lead Service Line (LSL) replacement, and EV Charger Infrastructure Initiatives.
- **EnviroKinecs, Inc.** provides Complete Streets and Green Infrastructure planning services to help reconnect communities through innovative new transportation projects.

Key Experience & Achievements

- Provided Home Energy Conservation services to over 120 homes for the Indiana Housing & Community Development Agency (ARRA funds), with energy audits, intelligent weatherization, air sealing, pressure diagnostics & high-performance insulation technologies.
- Organized the highly publicized 2008 Alternative Energy Round table Workshop featuring private sector and academic panel discussions, energy conservation demonstrations, and career development sessions at the Old National Bank Events Center in Evansville.
- Co-coordinated the public involvement roll-out strategy with Bernardin Lochmueller & Associates on the \$1.5 billion I-69 Evansville to Indianapolis Highway Project (FHWA's Corridor 18).
- Provided project identity for the six multi-national Section Consultants and coordinated the outreach and public involvement meetings for the review/evaluation process of the State of Indiana Preliminary Route concepts.
- Consulted on Evansville's Dept. of Metropolitan Development \$2.5 million HUD Lead Hazard Control Grant Application which included MOUs with Evansville Housing Authority's Youth Build program, training in Lead- Based Paint (LBP) Safe Work Practice, a New LBP Business Development component and much more.

Projects

- Manage community, stakeholder engagement, focus groups & planning on Jacobsville Neighborhood Redevelopment Plan Update for Rundell Ernstberger & Associates (REA) & Evansville Redevelopment Commission (2024).
- Coordinated outreach, participation and facilitated a Focus Group Listening Session on the Ohio River Watershed Restoration Plan for the National Wildlife Federation (2023).
- Provided public awareness, input and participation with REA for the Update of the Evansville Parks and Recreation Department's 5-Year Master Plan (2023).
- Staffing Services and CSGP weekly monitoring at construction site of 7m Gallon Storage Basin Project for Kokosing Industrial, Evansville Water & Sewer Utility's (EWSU) Westside Waste Water Treatment Plant.
- Served as the Complete Count Consultant for City of Evansville's 2020 Census Complete Count Committee. Managed outreach, awareness and encouraged participation activities to increase census response rates.
- Staffing Services and CSGP weekly compliance monitoring at Capacity Expansion Project for Kokosing Industrial, EWSU's Eastside Waste Water Treatment Plant (2019-2021).
- Consulted with Morton Solar & Wind on an Indiana Office of Energy Development's Alternative Power Energy Grant to install PV panels on the Evansville Vanderburgh Public Library's Central Library in downtown Evansville.
- Conducted an Employment and Education Enhancement Pipeline Outreach Strategy and developed associated Survey Report for Vectren Utility Co. (now CenterPoint Energy). Report available upon request.
- KYTC I-69 South Henderson, KY to Evansville, IN: Environmental Impact and Engineering Assessment Study
- Consulted with Bernardin Lochmueller & Associates, Wilbur Smith Associates, Inc. and Booz Allen & Hamilton, Inc. on the Indiana Department of Transportation's Long-Range Transportation Planning Process. Assisted with the facilitation and in support of the Public Involvement/Stakeholder Input process (2004 & 2010).
- Consulted with Urbitran Associates, Inc. on INDOT's Indiana Statewide Access Management (AM) Study. Coordinated outreach and participation for AM Training Workshops in the Seymour and LaPorte Districts.
- Consulted on the Hoosier Environmental Council's Ohio River Water Quality Workshops for in Evansville and Jeffersonville Indiana. Provided overall project management & coordination in development of the workshops.
- Consulted on the US EPA's Chemical Recovery Systems Superfund Site in Elyria, Ohio. Provided overall management of the community engagement activities and logistical tasks for an effective Public Input process.
- Managed Carver Community Organization's U.S. EPA Environmental Justice Small Grant. Developed an Environmental Resource Center to promote environmental awareness and sustainable communities throughout Evansville.
- Consulted on the Evansville Housing Authority's (EHA) 2002 HOPE VI Revitalization Application. Coordinated outreach, public involvement, and education activities to facilitate residents' participation in all four (4) of the Public Meetings on the 35 million HOPE VI application process.
- Conducted a Phase I ESA & Brownfield potential for the EHA's Erie Homes Public Housing Project.
- Lead-Based Paint (LBP) Inspection & Assessments at Oak Grand Community Apartment Complex LBP Clearances on Residential Homes.
